THE ANGELUS CORPORATION

January 17, 2023

Dear Loyal Aerospace and Defense Customers,

We would like to thank you for your continued loyalty and ongoing business with our company. PIC Wire & Cable continues to grow and flourish with your valuable support.

We would like to inform you that the CertifyNation division of Angelus, which specializes in Supplemental Type Certificate (STC) engineering services, will be closing. Since August of 2022, we have not been accepting new STC engineering service requests. We are now in the process of phasing out the STC kitting operations of CertifyNation. It is expected that the CertifyNation division will be fully dissolved by June of 2023.

Our certification team is in the process of achieving PMA certification for the PIC Wire & Cable by early summer 2023. Furthermore, PIC Wire & Cable remains dedicated to supplying manufacturing services and outstanding interconnect product solutions.

We thank you for your continued patronage and for being one of our loyal customers. We look forward to exceeding your expectations for quality interconnect products and services as PIC Wire & Cable.

Sincerely,

Paul C Dieck

President
